

BIMOS Stool

Workstation stool BIMOS Stool
(Part. No.: 94*)

Some of the tasks call for elevated seating positions or require workers to stand for long periods or to alternate between standing up and sitting down. As a result, their bodies are often subjected to a great deal of physical stress. Bimos offers a solution for such situations in the form of its stools, which provide support and take the strain off the body.

Design and materials:

With their extra-large 40 cm diameter seats, these hard-wearing stools provide optimum support in industrial and workshop applications. The sturdy steel 5 star base and upholstery edge protector that runs all the way round guarantee a long lifespan. The ergonomic saddle-like design of the Ergo Stool cannot fail to impress. Not only does it automatically straighten up the pelvis but it also encourages a posture in keeping with the natural S-shape of the spine.

- 5 star base made of stainless steel
- Star base with glides/castors
- Safety gas lift
- High-comfort upholstery
