# Three good reasons for Sweemo

**SweemoRoll**  
The mobile  
all-rounder

**SweemoSwing**  
The surprisingly  
swinging seat

**SweemoStand**  
The practical  
standing rest

Sweemo gives you a completely new seating sensation. It's neither a chair nor a stool, yet it combines the strengths of both. It is very versatile, uncomplicated and good looking. The comfortable seat and backrest ensure comfort in even the smallest space. Sweemo is simply fun.

Sweemo is suitable for absolutely any field of work. The round base of [SweemoRoll](#) with its casters permits a wide range of

movement. You can rest your feet on the base, making for a comfortable working position and better height compensation between the worktop and floor.

[SweemoSwing](#) and [SweemoStand](#) have a new type of pendulum base. This keeps the pelvis in motion, protects against an unhealthily rigid posture and gives you much more freedom of movement at work.

SweemoStand

# Sweemo – simply versatile sitting

**Sweemo is dynamic sitting**  
The innovative pendulum base allows active-dynamic sitting.

**Sweemo makes light of sitting**  
Sweemo is so handy it is always there when you need it.

**Sweemo always backs you up**  
The comfortable back support relieves without hindering.

## **Sitting – whenever and wherever you want**

Sweemo is much more versatile than any other chair. It is handy, flexible and compact. This makes it an indispensable help in almost any working environment. From an office, workshop, right through to a reception area. If a stool is too uncomfortable and a chair too bulky for you, here's Sweemo.

## **Sit like never before**

Active people often find it hard to sit still at work. And modern work is relying more and more on flexible work place solutions. But you still have to sit down occasionally at work.

Sweemo combines sitting with movement thanks to castors, a pendulum base and back support.

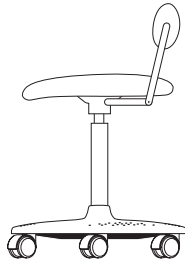

## SweemoRoll

with castors

### Seat height

440 – 640 mm

**Order no.** 9283

### Equipment

- Seat height adjustment
- Upholstered back support

# Sweemo at a glance

## Base

Sweemo comes with either a pendulum base or castors. The castors can be removed to change a SweemoRoll into a SweemoSwing in the wink of an eye if necessary.

## Back support

The back support ensures comfort and improved ergonomics. It can be

individually adjusted in two stages. This allows you to set the desired seat depth.

## Space concept

All models in the Sweemo system are particularly space-saving and can be simply stowed away beneath the desk at the end of work.

## The right surface for every use

Skai synthetic leather	or	Fabric cover	or	PU foam
<ul style="list-style-type: none"><li>• Very soft and comfortable</li><li>• Washable</li><li>• Resistant to disinfectants</li><li>• Easy-care</li><li>• Pleasant to handle</li><li>• Several colours available</li></ul>		<ul style="list-style-type: none"><li>• Breathable</li><li>• Skin-friendly</li><li>• Soft surface</li><li>• Several colours available</li></ul>		<ul style="list-style-type: none"><li>• "Indestructible"</li><li>• Good to the touch</li><li>• Comfortable</li><li>• Easy-care</li></ul>

## Sweemo – the quick-change artist

The removable castors turn SweemoRoll into SweemoSwing.

## Sweemo – the flexible

The backrest bow can be fixed in two positions.

## Sweemo – the space saver

Sweemo fits under any table. So it's there when you need it.

# We are bimos,

the leading manufacturer of working chairs in Europe. We have concentrated on providing special seating solutions for work beyond simple desks for decades. As sub-brand of Interstuhl, the specialist for office chairs, we can look back on more than 40 years of experience in developments and production. This means we understand not only our product but also, and

above all, your needs. We see a chair as a tool and at the same time as the most important link between people and production. Our chairs fit in perfectly with the working environment without requiring any changes from their users. This is the ideal we stand for.

We are bimos.
