

Technical data sheet Y368

Specification Swivel chair 24-h, high, neck support

Dimensions in mm	Backrest:	H:	750
	Seat:	H:	420-510
		W:	480
		D:	440
	Total:	H:	1350
		W (no ArmR):	480
		W (ArmR):	630
		D:	680
Packaging data	Weight:	kg	28
	Volume:	m³	0.6

Basic equipment

Benefit

Range of use		Work in 3 shifts. There is a permanent use without break, for example at the police, fire brigade, in hospitals and call- centres.
Backrest	High backrest with neck support, 50 mm foam + 10 mm cotton.	Synchronous mechanisms of Interstuhl are designed in a way that they help to support optimally the body in every seating position and at the same time they relieve the changes between the different seating positions.
Headrest	Neck support upholstered, 45 mm foam + 10 mm cotton.	During relaxed sitting especially relieves the neck and shoulder muscles.
Seat height adjustment	Seat height adjustment infinitely from 420-510 mm. Safety gas spring, self-supporting.	The correct seat height of a chair is the basic requirement for ergonomically correct and relaxed sitting and working.
Upholstery	Seat, back and neck support upholstered (with exchangeable upholsteries), can also be retrofitted. Breath- actively cutting foam and wadding. CFC- CHC- free (segregated).	Paddings are unglued, ensuring optimal air movement, easy to replace.
Frame	Reinforced steel base, black.	Very high stability, longevity.
Mechanism	Reinforced synchronous mechanism with glides. Weight regulation with anti- shock technology, large opening angle.	Synchronous mechanisms of Interstuhl are designed in that way that they help to support optimally the body in every seating position and at the same time they relieve the changes between the different seating positions.
Weight regulation	Infinitely adjustable from 50 - 120 kg.	Individual adjustment of the backrest and the back pressure on seize and weight of the user.
Seat depth adj./sprung column	Patented seat depth adjustment in the foremost seating position (60 mm extendable), simply adjustable when sitting. Sprung column also in the lowest seating position.	The real support area for the thighs for taller people will be enlarged. Cushions the impact on sitting down, thus gentle on the spine.
Castors	Hard castors, load- dependent braked, for soft floors (acc. to DIN EN 12529)	The chair does not roll away in an off- loaded condition, minimum risk of accident.
Materials	All materials are segregated and recyclable.	Environmentally friendly.
Certification	Quality management system DIN EN ISO 9001, EMAS acc. to EC Directive 761/2001, Environmental management system DIN EN ISO 14001.	High- quality product
Warranty and return	5 years long- term and 3 years full warranty. Complete return and recycling guarantee.	In spite of the user time the same guarantee conditions are valid as for chairs with averaged 8-hour/day use.

Options		Benefit
Upholstery materials	Genius: 50% polyamid, 33% new wool, 10% visil, 7% viscose, 650 g/rfm, 500.000 turns of abrasion. Airspace: 100% polyester, 440 g/rfm, 65.000 turns of abrasion. Perforated leather exclusive or Duotec MOS anti- static. All covers are available in several colours.	Through high turns of abrasion the covers have a high durability.
Lumbar support	Height and depth adjustable lumbar support (Schukra) with a hand wheel.	Mechanical lumbar support integrated in the back upholstery relieves the body of much of the muscle power needed to prevent the pelvis from tilting backwards.
Armrests	Synchronously height, depth and width adjustable. Width adjustable pad, pivoting and able to be locked. Can optimally be folded to the back. Height adjustable in 10 positions (130 mm), 100 mm width adjustment, pivoting to the left and to the right by 33°.	The armrests relieve the neck and shoulder muscles. Width adjustment is made synchronously without tools (will an armrest be removed, the other removes automatically at the same time). All removings are comfortably possible when sitting. Armrests which are folded to the back make possible a very quick use without getting caught with the upholstery.
Castors	Soft, load- dependent castors for hard floors (acc. to DIN EN 12529).	The chair does not roll away in an off- loaded condition, minimum risk of accident.
Accessories	Upholstery to be changed also separately to be ordered YS01: for the seat YR01: for the back YK01: for the neckrest Optionally integrated coathanger in the backrest (can not be retrofitted)	It is possible to consider hygienic factors.
